

## Windows 2008 Server and Active Directory Midterm Review

### Select three topics and describe the procedure in detail.

1. Explain the steps in setting up a Domain Controller with RAID 1 drives.
2. Explain adding the SNMP feature in detail.
3. State the steps in order to building a Windows Deployment 2008 Server that is capable of supporting Windows 7 clients.
4. The DHCP role loaded on the WDS server is essential for the remote installation process. Explain the steps for setting up a DHCP server using the 192.168.50.2 to 254 range.
5. Explain the steps for loading Windows 7 from a Windows Deployment 2008 Server
6. What attributes would be filled in on a New User template? State them all.
7. How do we setup the DC for home folders? Describe the whole process?
8. How do we enable and disable user accounts? Describe the whole process?
9. How do we add a client to a Windows 2008 Server? Explain all steps for the server and client.
10. What items have to be added to the DNS Properties window after setting up a Windows 2008 DNS server?
11. How do we create a Reverse Lookup zone on a Windows 2008 DNS server? Describe the whole process?
12. How do we set the Domain Security Policies on a Windows 2008 server? Describe the whole process?
13. How do we set the Audit Policies on a Windows 2008 server? Describe the whole process?
14. How do synchronize a Windows 2008 server to a NTP server? Describe the whole process?
15. How do we setup VPN and NAT capabilities on a Windows 2008 server? Describe the whole process?
16. Explain the entire process for setting up a group on a Windows 2008 server.
17. How do we setup a network printer such as the HP 2200 using the HP Network Printer wizard? Describe the whole process?
18. Explain the process in detail of loading an Organizational Unit, groups and users to the Domain Controller.
19. How do we share folders on a Windows 2008 server? Describe the whole process?

As stated before, text only is worth 70%, text with graphic support is worth up to 90%, and any documentation incorporating voice and film using programs such as Windows Expressions or the video camera is cable of earning us 100%.
