system repair disc × Shut down >		

Create the System Repair Disc

Put a blank CD or DVD in the drive and press the Create disc button. A blank CD has enough space to make the system repair disc , so we do not have to use a DVD. Create a system repair disc

 Select a CD/DVD drive and insert a blank disc into the drive

 A system repair disc can be used to boot your computer. It also contains

 Windows system recovery tools that can help you recover Windows from a serious error or restore your computer from a system image.

 Drive:
 DVD RW Drive (D:)

Labeling and Storing the Disc

Label the repair disc as shown in the dialogue box. This disc will say:

Repair disc Windows 7 64-bit

Press close to end the task and OK to close the Create a system repair disc window.
