

Network Bid 2

Design a simple wired network for a business:

Janet Smith
President
Small Company
1234 High Street.
Columbus, Ohio 43201
999-889-0001
jsmith@smallcompany.com

Ms. Smith wants a network with eight-computers with mainstream processors for her business. She wants a wired network for her LAN and a connection to the Internet using a local Internet Service Provider (ISP). The offices are 10 feet by 10 feet. They are the receptionist, two accounting, marketing, two sales, the president, and operations. There are two common laser printers, one at the reception area and the other in the bottom accounting office.

Create a diagram, spreadsheet quote and cover letter for the job and send the documents to your instructor with attachments. Make an informative PowerPoint presentation highlighting the features of the network you designed.
