

## IRQ Review

1. What IRQ on a x86 architecture computer is for the system clock?
2. What IRQ on a x86 architecture computer is for the secondary hard drive?
3. What IRQ on a x86 architecture computer is for the primary hard drive?
4. What IRQ on a x86 architecture computer is for the math co-processor?
5. What are the first two IRQ on a x86 architecture computer?
6. What are the last two IRQ on a x86 architecture computer?
7. What three IRQs are available?
8. What two COMM ports are on IRQ3?
9. What two COMM ports are on IRQ4?
10. What IRQ on a x86 architecture computer is for the LPT1?
11. What IRQ on a x86 architecture computer is for the Floppy Disk?
12. What IRQ on a x86 architecture computer is for the Real Time Clock?
13. IRQ5 is for what two devices on the x86 architecture computer?
14. What address is used for COMM1?
15. What address is used for COMM2?
16. What address is used for COMM3?
17. What address is used for COMM4?
18. What IRQ gets attention first?
19. What does IRQ stand for?
  1. Any device scheduled to use IRQ2 will actually be using what IRQ?
