

PC Hardware Bid 2

Name: _____ Date: _____

Scenario:

Terry Smith, with the First Community Mortgage Company at 1201 East High Street, Columbus, Ohio 43201 wants to purchase 32 computers for their office. The computers should have the latest Windows operating system installed and be able to join the company's Windows 2008 Enterprise domain. The computers must have a Core I-7 or equal processor and at least 8 gigabytes of RAM. On the front panel, the computers should have at least two USB ports, microphone and speaker TRS jacks, and a 5.25 DVD R/W drive. The computers should have both a RJ45 port for 1 Gbps network and a wireless card for the backup wireless router. Computers will have a minimum 22 inch widescreen monitor, a two button optical mouse and a keyboard. Each computer will have a 700 watt UPS. The computers should have Microsoft Office 2010 Professional, Adobe Reader, Adobe Flash, Adobe Air, Adobe Shockwave Player, and an antivirus package. Each computer should have an administrative and BIOS password for the BIOS setup. Each computer should have an administrative password on the Operating System that will be given to you by the company's network administrator. We need to program the wireless router.

Describe the computer you will provide :
